

Saad Mustafa

Front-End Developer — React.js — Next.js
Al Mahalla, Egypt — +20 1207453400 — Portfolio
saad.abdo01212@gmail.com — LinkedIn — GitHub

Summary

Front-End Developer specializing in React.js and Next.js with experience building responsive, scalable, and high-performance web applications. Skilled in JavaScript, TypeScript, state management, REST API integration, and modern frontend development practices. Passionate about creating user-focused interfaces and delivering maintainable, production-ready solutions.

Skills

Languages: JavaScript (ES6+), TypeScript, Python, C++ .

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap.

State Management: Redux Toolkit, Context API, TanStack Query .

Tools Technologies: Git, GitHub, Axios, REST APIs, Vite .

Concepts: Responsive Web Design, API Integration, Component-Based Architecture, Authentication, Authorization, Performance Optimization, SEO, Accessibility.

Experience

Front-End Developer Intern — Zikola Agency

May 2025 – Present

- Developing responsive web applications using React.js, Next.js, and REST APIs.
- Building reusable UI components and implementing state management solutions.
- Applying Git workflows, performance optimization, and frontend best practices.

Front-End Intern — National Telecommunication Institute (NTI)

Feb 2023 – Mar 2023

- Built responsive web interfaces using HTML, CSS, and JavaScript.
- Integrated REST APIs and improved application maintainability through reusable components.

Projects

Hospitify (Graduation Project)

Jan 2024 – Jul 2024

React.js, JavaScript, Context API, Axios, Tailwind CSS

- Developed a management system for a Rheumatic Heart Disease Center, handling patient registration, data storage, and medical records management.
- Implemented statistical dashboards and analytics for patient demographics, age groups, social status, and regional distribution.
- Built modules for healthcare campaigns, doctor scheduling, appointment management, and administrative operations.
- Integrated secure authentication and authorization for doctors and administrators.
- Integrated an AI-powered disease diagnosis model to support medical decision-making.
- Led the development team, coordinating tasks and ensuring successful project delivery.

Portfolio Website

2025

React.js, TypeScript, Vite, Framer Motion

- Developed a responsive portfolio website showcasing projects, technical skills, and professional experience.
- Implemented project filtering, dark mode, animations, and reusable component architecture.
- Optimized performance, accessibility, and user experience across desktop and mobile devices.

Quran Ayah App

2024 – 2025

Next.js, SSR, REST APIs

- Built a server-side rendered Quran application with audio playback and favorites functionality.
- Integrated external APIs for Quran content, translations, and recitations.
- Improved SEO, accessibility, and performance using Next.js best practices.

Education

Bachelor of Computer Science Misr Higher Institute of Commerce and Computers Grade: Very Good

2020 – 2024
